FROM MY WORLD TO YOU, HELLO!

I want to refresh my skills in Adobe programs and learn something new. I'll be working on building a portfolio of illustrations made for printing and paper crafting like pop-up cards, table settings, room decor. The theme of my projects is an imaginary world of cutesy characters living their fun lives. They're in so many colors so my words will simply be Traveling Typewriter and Brushed Traveler in these colors:

EVERYDAY

FROM MY WORLD TO YOU, HELLO!

I'm a Disney kid at heart and always believe that magic moments are everywhere around us and we can create them whenever we want. I learned to balance out colors in different layers and use a pattern brush to add an extra touch of sparkle to the window frame into the world of magic.

FISHING

FROM MY WORLD TO YOU, HELLO!

This is Bunnier [pronounced: Bun-neay]. He loves his mornings because that's when the best carrots are swimming upstream and taste the sweetest. I've never worked on vector graphics with a raster image set to the scene before so it was great seeing how the 2 came together nicely.

FROM MY WORLD TO YOU, HELLO!

The story of the Sappy Banana is a personal livelihood that I discovered about myself in the past few years. I saw this project as an opportunity to show a moment that everyone may feel at times, and the ones we surround ourselves with can truly bring out the best colors in us. Being able to animate it was the cherry on top of something I made up coming to life.
